(54) Title: FLUORINE-CONTAINING VINYL ETHERS, THEIR POLYMERS, AND RESIST COMPOSITIONS USING SUCH POLYMERS

$$H_2C = O-R (1)$$

(57) Abstract: The invention relates to a fluorine-containing vinyl ether represented by the formula (1), wherein R represents an organic group containing at least one fluorine atom and a cyclic structure. The invention further relates to a fluorine-containing copolymer containing (a) a first unit derived from a first monomer that is a fluorine-containing vinyl ether represented by the formula (8) where R^1 is -H or a C_1 - C_8 alkyl group that optionally contains an oxygen atom; and (b) a second unit derived from a second monomer that is at least one selected from acrylic esters and methacrylic esters.
